

"I liked being able to design Robots using my imagination. I liked everything about this camp, it was great!" Colton, 3rd grade

Robotics

Level I, II & III

Summer Camp 2010

Description: All Around Math Learning Center offers Robotics Level I, II and III Summer Camps for elementary and middle school students. Students will be introduced to building and programming robots that have human-like capabilities such as following sound commands, talking, lifting objects, and much more. In **Level I** they learn to build various Lego Mindstorms robots and will be introduced to robot programming. In **Level II** they will extend their knowledge of programming and build robots to complete various "challenge courses". In **Level III** they will design and build their own robots, then form teams and compete with other campers in fun robotic sports. Problem solving challenges and team-building skills will be emphasized throughout these camps. To learn more about Mindstorms, please visit the Lego website at www.mindstorms.lego.com

Grades 3-10

Students will form small teams based on age and ability levels.
