# Math and Science Everywhere

## Summer Camp 2010

**Description:** This camp will provide your child with exciting and educational opportunities to explore math and science in the real world. Most schools and classrooms can no longer give your child the small group and hands-on interaction that kids need and love, much less the opportunity to ask questions and create their own experiments! We encourage you to have your child join us for a week of exciting activities. The camps will be designed around the interests of the participants and will include such events as: chemistry in the kitchen, mixology, rocketry, computer analysis, and physics in action.

Grades 1-7 Students will form small teams based on interest, age, and ability levels.

**Tuition:** \$195 per week. Non-refundable; date changes are possible based on availability.

**Registration:** Registration is on a first come, first served basis. Please register early.
